# The Ten Rules of Concert Etiquette

For Parents, Friends & Family

1. **Refrain from talking**

This is the first and greatest rule.

This rule includes whispering to or disciplining your other children

2. **Refrain from unwrapping noisy candy wrappers during the performance** If the composer wanted to include crinkle paper noises to the music, he or she would have written it into the parts.

3. **Turn off pagers, cell phones and watch alarms**

While many phones and pagers now have very symphonic-like rings, they don't always fit into the musical score, nor do they provide pleasant sounds for your neighbors.

4. **Do not wave to your child during the concert**

After all, they do know who you are already and they know you are there, you most likely brought them to the concert.

5. **Do not take flash photography**

You don't want your child to walk off the edge of the stage from flash blindness, do you?

6. **Please do not walk down the center aisle with your video camera**

Video cameras work just as well from the back of the auditorium (besides; the light is usually not good enough for video taping anyway).

7. **Do not leave as soon as your child's portion of the concert is over**

All of the students deserve a full audience for their performances. Remember, the next time your child's portion of the concert could be last!

8. **Applaud at the appropriate times**

Some music has several sections or movements. Remember, it's not over until all of the sections have been performed.

9. **Do not leave or move about the auditorium during the music**

Wait for a break in the concert to visit the restroom, unless you are carrying a screaming child, in which case you should leave quietly and quickly, PLEASE! Also, all children should be seated during the entire performance.

10. **Go to the concert expecting the best**

You just might be surprised how good your student sounds when the other students join in!
